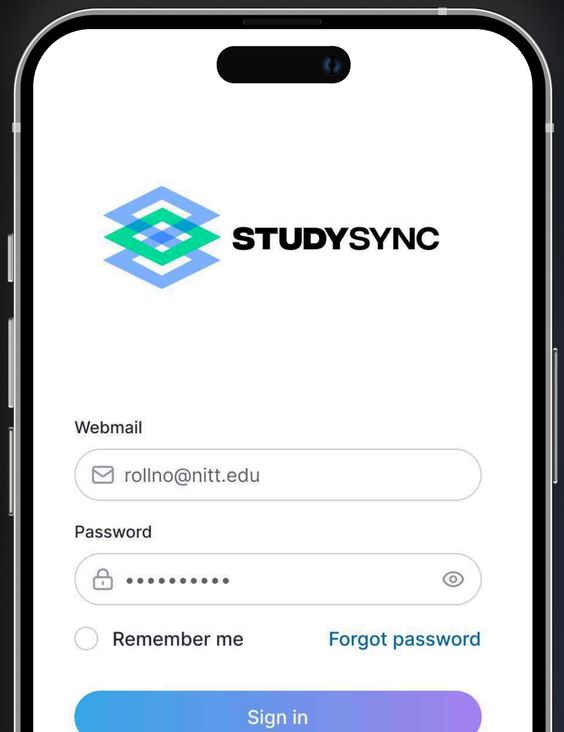
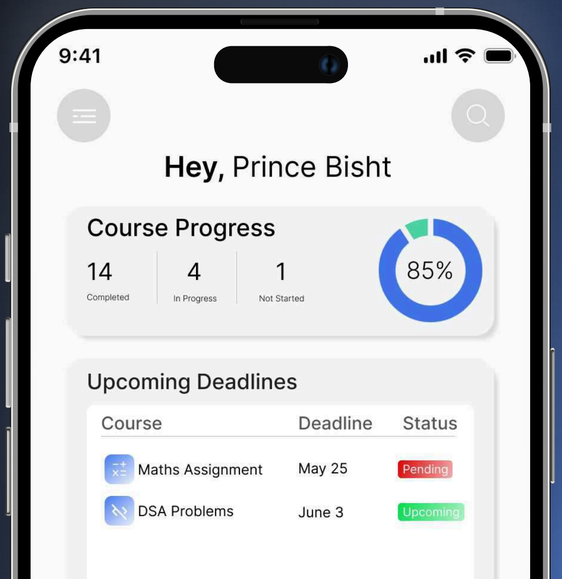
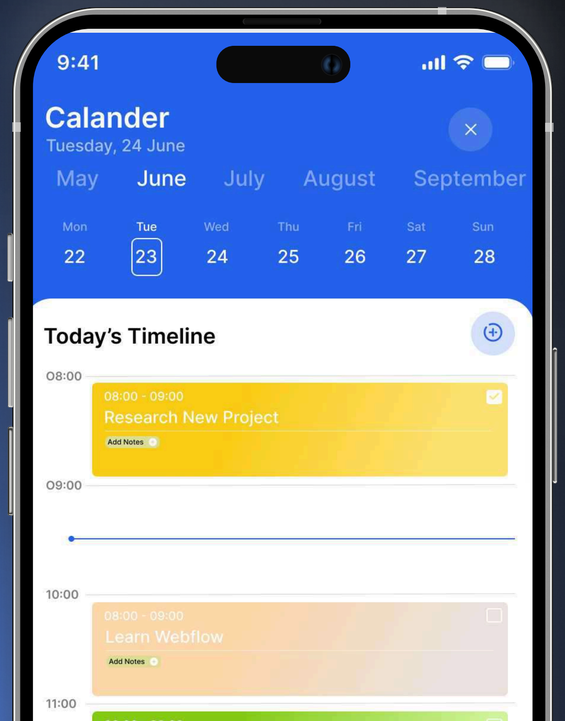
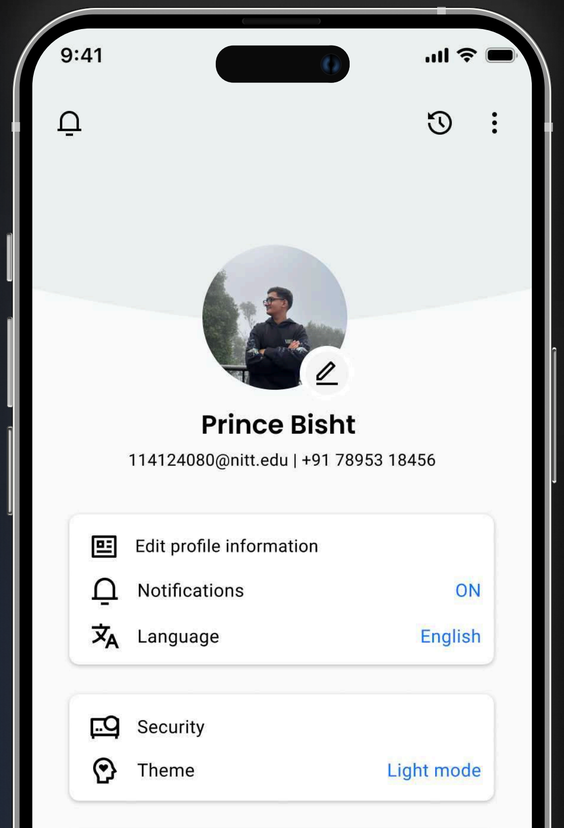
STUDYSYNC

Academic Tracker Mobile Application









About this Project

StudySync - Academic Tracker App

It is a smart mobile app designed to help students take control of their academic schedule. From tracking upcoming deadlines and exam dates to managing class timetables and daily tasks.

Problem

Students struggle to manage deadlines, exams, and classes across multiple platforms and forms. This leads to missed deadlines, stress, and poor time management.

Goal

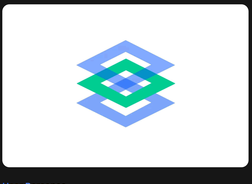
To help students manage academic tasks, deadlines, and schedules effectively through a centralized, distraction-free, and user-friendly mobile app.

Our Solution

StudySync brings every aspect of your academic life into one app

- **Centralized Dashboard & Calendar**
  View upcoming assignments, exams, and class timetables at a glance.
- **Smart Task Management**
  Add, categorize by course, deadline, priority, and mark tasks as done-all with a tap.
- **Personalized Reminders & Notifications**
  Get timely alerts before deadlines, so nothing slips through the cracks.
- **Distraction-Free Focus Mode**
  Block out interruptions and track focused study sessions with built-in timers.
- **Intuitive Navigation**
  Easy sidebar/bottom-nav access to Home, Calendar, Tasks, Notifications, and Profile.

Logo Designing



User Personas

Primary user persona based on a college student's daily academic challenges.

To ensure the app meets actual user needs, we created two user personas inspired by real college students Shubh and Tanmay. These personas reflect common academic challenges, habits, and expectations from a productivity app.
